digital art workshops for primary schools

You decide on a theme or Curriculum topic that's important to your school. Healthy Packed Lunches, Internet Safety, Bike to School are just some of the possibilities.

Your children have the fun and challenge of exploring and developing your theme with ArtSpokes. We talk about design then the children sketch their ideas.

With ArtSpokes the children learn to create designs on the computer using our free professional software. Designs can be for stickers, posters, banners, T-shirts, calenders You choose.

The children share their ideas and work with their classmates and parents in assembly or at a special event. Everyone has fun and learns something new.

Your children can

- Learn computer drawing and design in a fun and imaginative way and improve their ICT proficiency.
- Develop language & problem solving skills, team work and public speaking.
- Boost their confidence and leadership skills.

Our workshops help you

- Fulfill your Key Stage 2 Curriculum targets.
- Attain Sustainability and Healthy School criteria.
- Involve parents to achieve a bigger and more sustainable change.

You can be creative too!

ArtSpokes also run one hour introductory workshops for teachers.

“ Their enthusiasm and passion for the project was evident when they presented their work to the whole school ” ICT Co-ordinator Cyril Jackson Primary School
